

Guida

Eyelid

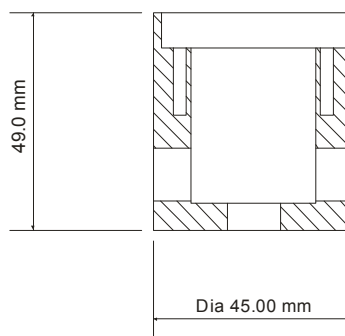

Flush

Domed

Guida Optic version available with Flush or Domed top

Spot Beam angle: 5°

**Optional recessing
Ground box
GU-MBX**

See the benefits:

Ultra slim design

Guida is an ultra compact light source which can integrate seamlessly within architectural features or even furniture.

Improved safety

Guida modules run on a low voltage current making them safer and easier to work with.

UV and IR safe

The Light from a Guida module contains no UV or IR radiation, so it's safe for use on food and light-sensitive materials.

Maximum visual effect

Guida modules are available in deep saturated colours and a range of warm and cool white colour options.

IP67 rated

All Guida modules are sealed to IP67 and so can be used in interior and exterior applications.

Low maintenance costs

The Guida is virtually maintenance free and offers long life up to 50,000 operating hours.

High reliability

Guida modules are extremely robust - resistant to vibrations and contain no glass parts.

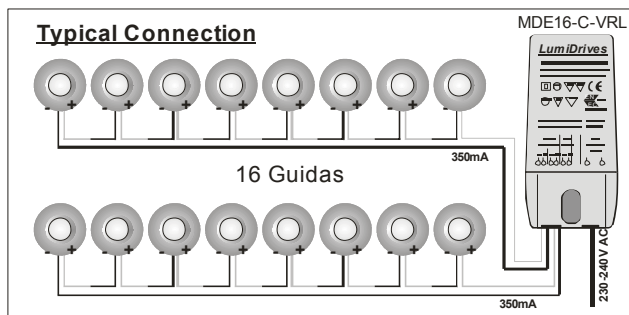

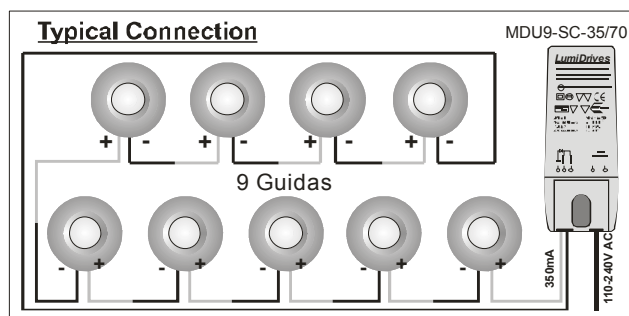

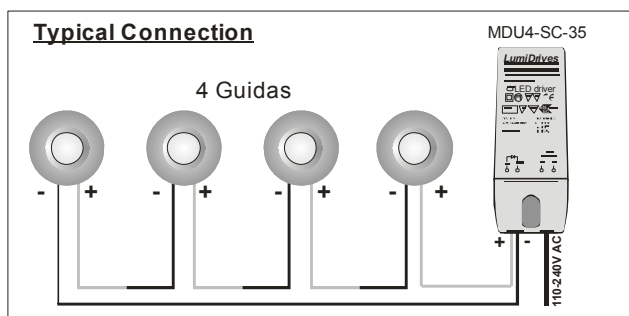

Immediate start-up

The Guida starts in an instant, even at temperatures as low as -20°C

Imagine the Applications:

- Exterior decking
- Shelf Lighting
- Integrated into furniture
- Under counters
- Staircases
- Display cases

Compatible drivers

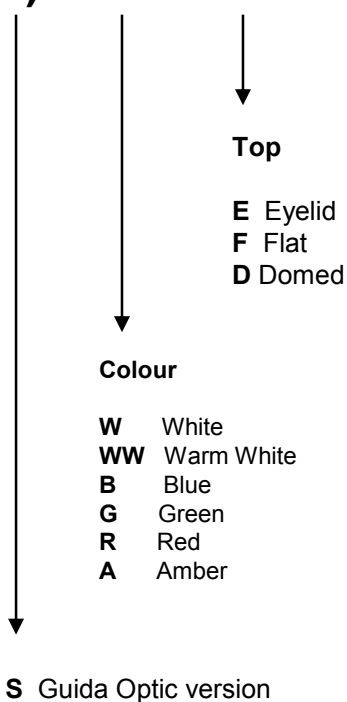

Ambient Temperature: -15° C to +40° C

Use a 350 mA constant current driver only

Model	Maximum number of Guidas connected	Dimensions	Supply Voltage	Dimming
MDU4-SC-35	4	100 x 40 x 25 mm	85 – 265 VAC	X
MDU9-SC-35	9	100 x 40 x 25 mm	85 – 265 VAC	X
MDE16-C-VRL	16	110 x 49 x 25 mm	230 VAC	Via 0 – 10 volt dimmer

Model Information

GU - (S) - XX - X

Power consumption:	1.2 Watts
Light Output based upon white version*:	35 lumens
Construction:	Aluminium body and snap on cover
Ingress protection:	IP67

* Full photometric data available on request
